

Dear LLPA Neighbors,

The new boat launch keys are now ready for pick-up! We will be distributing them on several occasions in April. The first of these is Sat., April 8 at the park, from 1-2 p.m. Bring your \$5 deposit to receive your key and your boat launch agreement. We will post the actual "switchover date" on the white board. ETA for the change is May 1.

Our Park and Boat Launch committee met several times this winter to work out the details of the agreement. We had not changed our key in over 10 years and we were concerned about the number of keys that had reached non-members.

It was decided to change the lock and use a non-reproducible key with a numbering system. Each family that wants a key may receive one for a \$5.00 deposit. A key number will be assigned to that family and the member must agree to follow the directives on the contract. The contract is also printed on our website so we suggest you look it over before coming to pick up your key.

Long Lake Marina was kind enough to buy the floatable yellow key chain for your key. They have their name and phone number stamped on one side of the float and our LLPA is on the other side. Please remember they can help you when your motor dies or needs repairs!

See you at the launch! Happy Boating!

LLPA Park and Rec Committee

P.S. We are also planning on dredging the launch this spring. We are accepting donations to help cover this cost. Please contact Jim Bottoms if you can donate.
